Database as a Service (DaaS) create and configure a new VM Image in any Public Cloud Service Provider

IMPLEMENTATION:

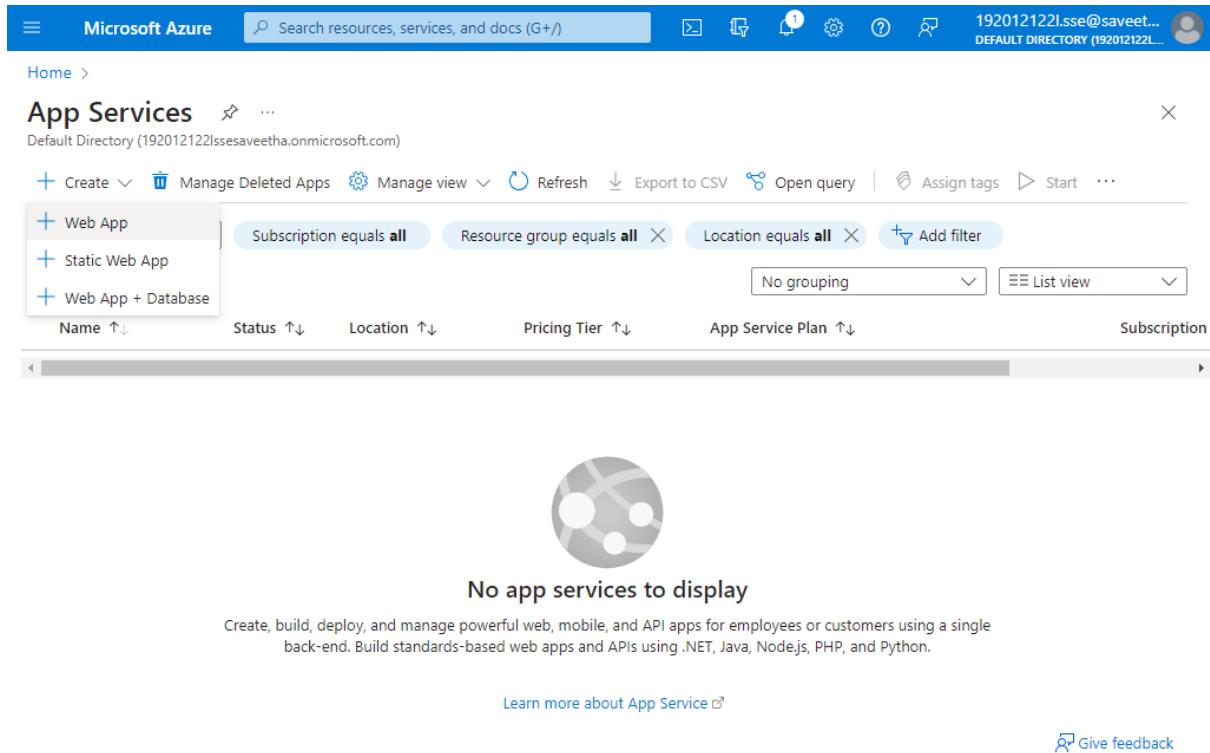

STEP 1: GO TO APP SERVICE TO CREATE A WEBAPP.

The screenshot shows the Microsoft Azure portal interface. At the top is a blue header bar with the Microsoft Azure logo, a search bar, and user information. Below the header, the 'Azure services' section displays icons for various services: Create a resource, App Services, Virtual machines, Resource groups, Quickstart Center, Storage accounts, SQL databases, Azure Cosmos DB, and Kubernetes services. Below this, the 'Resources' section has tabs for 'Recent' and 'Favorite'. The 'Recent' tab is active, showing a table of recently viewed resources.

Name	Type	Last Viewed
app1	Static Web App	a few seconds ago
azure2	Resource group	4 minutes ago
cloud4	Virtual machine	20 hours ago
cloud3	Virtual machine	20 hours ago
azure1	Resource group	20 hours ago

See all

STEP 2: SELECT CREATE AND CLICK ON WEB APP

The screenshot shows the Microsoft Azure portal interface. At the top, the header includes the Microsoft Azure logo, a search bar, and user information for '1920121221.sse@saveet...'. Below the header, the 'App Services' section is active, displaying a list of app services. The 'Create' button is highlighted, and a dropdown menu is open, showing options: 'Web App', 'Static Web App', and 'Web App + Database'. The 'Web App' option is selected. Below the dropdown, there are filters for 'Subscription equals all', 'Resource group equals all', and 'Location equals all'. The table below the filters shows columns for 'Name', 'Status', 'Location', 'Pricing Tier', 'App Service Plan', and 'Subscription'. The table is currently empty, and a message states 'No app services to display'. Below the message, there is a link to 'Learn more about App Service' and a 'Give feedback' button.

Microsoft Azure Search resources, services, and docs (G+)

STEP 4:GIVE NAME AND VALUES FOR TAGS

Create Static Web App ...

Basics **Tags** Review + create

Tags are name/value pairs that enable you to categorize resources and view consolidated billing by applying the same tag to multiple resources and resource groups.

Note that if you create tags and then change resource settings on other tabs, your tags will be automatically updated.

Name ⓘ	Value ⓘ	Resource
app1	: 10	Static Web App 
<input type="text"/>	: <input type="text"/>	Static Web App

STEP 6:CLICK ON GO TO RESOURCE AFTER DEPLOYMENT IS CREATED

The screenshot shows the Azure Portal interface for a deployment. At the top, there's a breadcrumb "Home >" and the deployment name "Microsoft.Web-StaticApp-Portal-11063ae3-a44f" followed by "Overview" and a close button. Below this is a search bar and a toolbar with "Delete", "Cancel", "Redeploy", "Download", and "Refresh" buttons. A left sidebar contains a menu with "Overview" (selected), "Inputs", "Outputs", and "Template". The main content area features a green checkmark icon and the heading "Your deployment is complete". Below this, deployment details are listed: "Deployment name : Microsoft.Web-StaticApp-Portal-11063ae3-a44f", "Subscription : Azure for Students", "Resource group : azure2", "Start time : 7/11/2023, 9:10:42 PM", and "Correlation ID : 9a9762d1-9d4b-443f-8c10-c425dfbe2f8b". There are expandable sections for "Deployment details" and "Next steps". A blue button labeled "Go to resource" is prominently displayed. At the bottom, there's a "Give feedback" section with a link "Tell us about your experience with deployment" and a small circular progress indicator.

STEP 7: GOTO WEBSITE URL LINK.

The screenshot shows the Azure portal interface for a Static Web App named 'app1'. The left sidebar contains a navigation menu with sections: Overview, Access control (IAM), Tags, Diagnose and solve problems, Settings, Configuration, Application Insights, Custom domains, APIs, Database connection (preview), Environments, Role management, Identity, Enterprise-grade edge, and Hosting Plan. The main content area displays a 'Thank you' message and a 'JSON View' link. Under the 'Essentials' section, it lists: Resource group (azure2), Subscription (Azure for Students), Subscription ID (042e3f3b-8cfe-4e88-82c8-b6bf539841a2), Location (Global), Sku (Free), and Tags (app1 : 10). At the bottom, there are 'Requests' and 'Data out' tabs.

STEP 8: THIS IS OUR WEBAPP SERVICE.

The screenshot shows a web browser window with two tabs: 'app1 - Microsoft Azure' and 'Azure Static Web Apps - Welcome'. The address bar shows the URL 'blue-stone-037e16d10.3.azurestaticapps.net'. The page content features the Microsoft Azure logo, a heading 'Your Azure Static Web App is live and waiting for your content', and a paragraph: 'Your app is now live, but we don't have your content updates. Check the deployment status in the GitHub Actions tab in your repository. Learn more about deployment from the Static Web App deployment docs. [Learn more](#)'. To the right of the text is an illustration of three overlapping computer monitors displaying code and a terminal window.
